

About Kassi Ashton

With a little bit of rock, a hell of a lot of soul, and a throwback R&B groove, MCA Nashville's Kassi Ashton is set to take the music world by storm.

"Kassi Ashton is in line for Nashville domination, and she'll do it her way – unapologetically," proclaims *PEOPLE* Magazine. The California, Missouri singer/songwriter touched down with a string of critically acclaimed tracks released by UMG Nashville with Interscope Records. Her introductory release "California, Missouri" stirred widespread critical acclaim from *Taste of Country*, *CMT*, *The Boot*, and many more. Kassi was also named as an Artist to Watch by *Huffington Post*, *The Tennessean*, and radio personality Bobby Bones. *Rolling Stone* lauds her as "a devilish songwriter who isn't afraid to flip convention on its head," while *Refinery29* claims, "she blends pop aesthetics with a presence doused in no-fucks-left-to-give authenticity," *PAPER Magazine* calls her "the next big country superstar," and *American Songwriter* notes, "Ashton brings powerful storytelling and a sense of poetry in every release."

Kassi defies convention and continues to deliver her signature style with confessional, catchy storytelling and dynamic vocal performances on songs including her latest, "Drive You Out of My Mind," and critically acclaimed releases "Dates In Pickup Trucks," "Heavyweight," "California, Missouri," "Hopeless," "Violins," and more. This year, Kassi will continue to disrupt the country scene with some of her most powerful music to date.
